

Automated Build and Release Pipeline on Azure DevOps

(*) Jobs inside the same stage run in parallel.

Smoke testing.

Jobs run in parallel (*)

We plan to add GPU OpenCL tests.

Idem (*)

Since they are very slow tests, only "my" OpenCL formats are being tested.

Idem (*)

Download the .7z package file produced by "Delivery" and test it on Azure VMs.

Upload the .7z package file produced by "Delivery" and put it on the Internet.
